CHALLENGER POWER ON YOUR ADVANTAGES AT A GLANCE

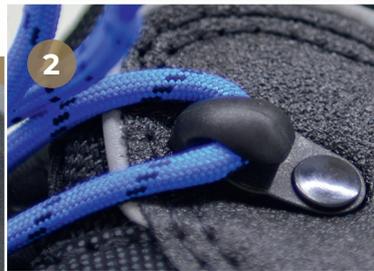

With just one turn:

BOA® Fit System allows to open and close the shoes in no time.

Lacing with ease:

Alternatively, to the BOA® Fit System – simplified lacing due to the clamping hook and fortified laces.

Extra soft or smooth?

Our new and innovative HKS® microtech uppers combine the advantages of textile & leather.

HKS® Power-Foam Technology:

5 mm damping layer for a first-class rebound effect and maximum comfort.

Shoes for every mission:

Choose between our ultra-grip nitrile rubber outsole or extreme abrasion resistant TPU outsole.

TPU-Covered:

Extended durability due to additional abrasion protection.

UNLOCK YOUR POWER

ARE YOU READY FOR THE NEXT CHALLENGE?

Power On! Get ready for any mission with the new and innovative safety shoes of our Challenger Power On series ("CPO-series"). Combining the latest upper technology with a well-proven shape, you'll experience a first-class and unforgettable comfort. All models of the CPO series are equipped with a steel toe-cap and textile penetration protection to ensure the highest level of protection. We have also designed the implemented materials especially for tough conditions, which makes our new CPO series

a reliable partner even in difficult environments. Choose between our ultimate ultra-grip nitrile rubber outsole or extreme abrasion resistant TPU outsole. Thus, you are able to adjust the safety shoes to your individual field of operation in the best possible way. All models are orthopedically adjustable according to DGUV 112-191. We have used only high-quality, **sustainable and recycled materials** in our new CPO series.
